İRFAN SÜTLÜ

FRONT-END DEVELOPER

Hello there, I'm Irfan. I live in Sakarya, where I was born and raised. I graduated from Sakarya University, the Department of Finance. Since I'm more prone to cyberspace and I didn't plan a career in the finance department, I wanted to take my chance in the software industry. Apart from the education I received, I aim to improve myself and enhance my abilities in the field of software. I am planning to reach for the right position in my career. I am a junior programmer with good knowledge of front-end techniques. I love structure and order and I also stand for quality. I love spending time on fixing little details and optimizing web apps. Also I like working in a team, I'll learn faster and much more.
